## **Tecalan tube and hose cutter**

### **For the perfect cut**

The Tecalan tube and hose cutters are the ideal tool for precise and clean cuts on thermoplastic hoses, PU tubes and other plastic tubes. Thanks to their ergonomic shape and high-quality blade, they not only offer precise cutting results, but also a high level of user comfort - even with frequent use.

Whether in the workshop, in mobile service or in industrial production:

These scissors ensure efficient work and reduce cutting errors to a minimum.

### **Product features:**

- Suitable for PU tubes, thermoplastic hoses and similar plastic tubes
- Clean, straight cut without crushing
- Ergonomic handle for safe and comfortable handling
- Robust construction for continuous professional use
- Compact design - fits in any tool bag

### **Application:**

Ideal for use in assembly, maintenance, machine and vehicle construction and wherever plastic tubes and hoses need to be processed precisely.

### **Summary:**

The Tecalan tube and hose cutters are a reliable tool that makes cuts quickly, cleanly and effortlessly - a must for every professional application.
